

## Neal Asbury to Join Entrepreneurship Panel with Congressman Issa During RNC Convention

During the RNC Convention in Tampa, Neal Asbury, host of Made in America and a leading advocate of American entrepreneurship, will join a Startup America panel on Monday, August 27th that will address the intersection of government and entrepreneurship. Asbury will join a panel featuring California Congressman Darrell Issa; and Zalmi Duchman, Founder and CEO, The Fresh Diet. The panel will be moderated by Scott Case, CEO, Startup America.

"Essentially, there should be no intersection between gov-

ernment and entrepreneurship. If government stayed out of the way of entrepreneurs and small business, millions of new jobs would have been created and the economy would have begun to rebound," said Asbury, who also is the author of "Conscientious Equity: An American Entrepreneurs Solutions to the World's Greatest Problems," which offers a hands-on perspective of an American businessman who understands how America can navigate through its challenges and restore its prominence as the

world's economic leader and free trade champion

As he does every week on his radio show, Neal will go-to-bat for the nation's entrepreneurs who are waiting for leadership that will give them the opportunity to hire and reinvest in America. With more than 24 million unemployed or underemployed Americans, Neal will share his recommendations for spurring employment and job creation. It starts with a sane tax system, reduction in onerous regulations, and giving small business access to working capital.
